

Technical data:

Edge Profile PRO for Child Safety Matting

Stand: 01.2024

Installation situation

Fixing with ground anchor GEA604315

Angled PRO Safety Mat	Angle: Height/Width	90/60mm
Material: Galvanised steel DX51D+z275MA-C	Material thickness: 2mm	Tensile strength: 250-400 N/mm ²
Material: Nirosta® stainless steel 1.4016 is a Chromium steel. (chromium content 16.5%)	Material thickness: 1,5mm	Tensile strength: 600-700 N/mm ²

Profile length: 2400 mm

Special angles (minimum height 80mm) and lengths on request.

Width optimised safety edge

The angle profile PRO children's safety mat has a width-optimised safety edge (60 mm) for extra protection, making it ideal for edging safety mats.

PRO angle profile for straight installation

The PRO angle profile is available in 90/60 angles and is only suitable for straight installation. Special angles (minimum height 75mm) and lengths are available on request.
